**Merit Systems Protection Board  
FY 2002 Performance Report**

**MISSION**

The Merit Systems Protection Board (MSPB) is an independent quasi-judicial agency established to protect Federal merit systems against partisan political and other prohibited personnel practices and to ensure adequate protection for employees against abuses by agency management. The Board carries out its statutory mission principally by:

- Adjudicating employee appeals of personnel actions over which the Board has jurisdiction, such as removals, suspensions, furloughs, and demotions;
- Adjudicating employee complaints filed under the Whistleblower Protection Act, the Uniformed Services Employment & Reemployment Rights Act (USERRA), and the Veterans Employment Opportunities Act;
- Adjudicating cases brought by the Special Counsel, principally complaints of prohibited personnel practices and Hatch Act violations;
- Adjudicating requests to review regulations of the Office of Personnel Management (OPM) that are alleged to require or result in the commission of a prohibited personnel practice—or reviewing such regulations on the Board’s own motion;
- Ordering compliance with final Board orders where appropriate; and
- Conducting studies of the Federal civil service and other merit systems in the Executive Branch to determine whether they are free from prohibited personnel practices.

## **GUIDE TO MSPB OFFICE FUNCTIONS AND ACRONYMS**

All offices operate under the direction of the Chairman as CEO and report to the Chairman through the Chief of Staff, who also serves as the Chief Information Officer.

<b>ORO</b>	<u>Office of Regional Operations</u> – Manages the adjudicatory and administrative functions of the MSPB regional offices. Administrative judges in the regional offices adjudicate cases and issue initial decisions.
<b>ALJ</b>	<u>Office of the Administrative Law Judge</u> – Adjudicates complaints filed by the Special Counsel, complaints filed by agencies against administrative law judges, and other assigned cases, and issues initial decisions.
<b>OAC</b>	<u>Office of Appeals Counsel</u> – Prepares proposed final decisions for the Board on petitions for review (PFRs) of initial decisions.
<b>OCB</b>	<u>Office of the Clerk of the Board</u> – Dockets cases received at headquarters and issues all Board decisions. Operates public information center, including responsibility for the MSPB website and other electronic information programs.
<b>OGC</b>	<u>Office of the General Counsel</u> – Legal advisor to the Board. Conducts the Board’s litigation. Prepares proposed final decisions for the Board in certain assigned cases.
<b>OPE</b>	<u>Office of Policy and Evaluation</u> – Conducts the Board’s governmentwide merit systems studies. Also conducts customer surveys.
<b>FAM</b>	<u>Financial and Administrative Management</u> – Manages financial and administrative programs, including budget, procurement, and contracting. Manages interagency agreements with APHIS Business Services for performance of HRM functions, Bureau of the Public Debt (BPD) for accounting services, and National Finance Center (NFC) for payroll services.
<b>IRM</b>	<u>Information Resources Management</u> – Manages information technology programs. Principal advisor to CIO on IT matters. Responsible for technical requirements of electronic case processing system and electronic information programs.
<b>OEEO</b>	<u>Office of Equal Employment Opportunity</u> – Manages EEO program.

## **PERFORMANCE SUMMARY**

The MSPB Performance Plan for FY 2002-FY 2003 included 38 performance goals under the 5 strategic goals of the agency's Strategic Plan, FY 2001-FY 2006. Three of the performance goals for FY 2002, however, were contingent on the enactment of legislation authorizing the Board to conduct a voluntary early intervention alternative dispute resolution (ADR) pilot program. Because this legislation was not enacted during FY 2002, results for those three goals are shown as *not applicable* in this Performance Report. Of the remaining 35 goals for which results are reported herein, the MSPB met 30 of them—for a success rate of 86 percent.

Strategic Plan Goal 1, Adjudication – The MSPB met all but 2 of the 13 performance goals under this Strategic Plan goal. All of the goals related to decision quality were met. Of the five goals related to case processing timeliness, three were met. The goals not met were those for average processing time for enforcement cases at headquarters (Goal 1.2.3) and number of overage cases pending at headquarters at year-end (Goal 1.2.4). All of the remaining goals under this Strategic Plan goal were met.

Strategic Plan Goal 2, Alternative Dispute Resolution – Except for the three goals that are not applicable to this Performance Report because the authorizing legislation for the ADR pilot program was not enacted, all of the performance goals under this Strategic Plan goal were met.

Strategic Plan Goal 3, Merit Systems Studies – All but one of the performance goals under this Strategic Plan goal were met. The goal for issuance of a report on the 2000 Merit Principles Survey (Goal 3.2.1) was not met.

Strategic Plan Goal 4, Management and Administration – All but two of the performance goals under this Strategic Plan goal were met. The goals not met were those for implementation of the new case management system, Law Manager (Goal 4.3.1), and implementation of a pilot electronic filing system (Goal 4.4.1).

Strategic Plan Goal 5, Human Resources – All of the performance goals under this Strategic Plan goal were met.

**BUDGET ACTIVITY – ADJUDICATION: \$28.5 MILLION**

<b>Strategic Plan Goal 1</b> <b>To consistently provide fair, timely, and efficient adjudication of cases filed with the Board</b>		
<b>Objective 1 – Issue high quality decisions</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.1.1</b> Maintain/reduce low percentage of cases decided by the Board on petition for review (PFR) that are reversed and/or remanded to MSPB judges for a new decision  <b>FY 2002 Goal</b> – 10 % or less <b>FY 2003 Goal</b> – 10 % or less	Board, ORO/Regional Offices, ALJ	<b>FY 1999 Actual</b> – 15 % <b>FY 2000 Actual</b> – 12 % <b>FY 2001 Actual</b> – 12.6 % <b>FY 2002 Actual</b> – 8 %

**FY 2002 Results**

This goal was met. In recent years, the percentage of PFRs reversed and/or remanded to MSPB administrative judges for a new decision has ranged from 10 percent to 15 percent. The result achieved in FY 2002 was below the low end of that range. However, results for this goal can be affected by a number of factors, including normal year-to-year variations in the cases reviewed by the Board, decisions issued by the Board or the Federal Circuit that change prior precedent, new Board regulations and policy pronouncements, vacancies on the Board, and changes in the membership of the Board. The goal for FY 2003 is maintained at 10 percent or less.

<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.1.2</b> Maintain/reduce low percentage of proposed decisions submitted by headquarters legal offices to the Board that are returned for rewrite  <b>FY 2002 Goal</b> – 12 % or less <b>FY 2003 Goal</b> – 12 % or less	Board, OAC, OGC	<b>FY 1999 Actual</b> – 14 % <b>FY 2000 Actual</b> – 9 % <b>FY 2001 Actual</b> – 15 % <b>FY 2002 Actual</b> – 8 %

#### **FY 2002 Results**

This goal was met. In recent years, the percentage of proposed decisions returned by the Board to headquarters legal offices for rewrite has ranged from 8 percent to 17 percent. The result achieved in FY 2002 was at the low end of that range. However, results for this goal can be affected by a number of factors, including normal year-to-year variations in the cases reviewed by the Board, decisions issued by the Board or the Federal Circuit that change prior precedent, new Board regulations and policy pronouncements, vacancies on the Board, and changes in the membership of the Board. The goal for FY 2003 is maintained at 12 percent or less.

<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.1.3</b> Maintain low percentage of remands to the Board from the U.S. Court of Appeals for the Federal Circuit  <b>FY 2002 Goal</b> – 7 % or less <b>FY 2003 Goal</b> – Not applicable	Board, ORO/Regional Offices, ALJ, OAC, OGC	<b>FY 1999 Actual</b> – 4 % <b>FY 2000 Actual</b> – 4 % <b>FY 2001 Actual</b> – 4 % <b>FY 2002 Actual</b> – 6 %

#### **FY 2002 Results**

This goal was met. In recent years, the percentage of final Board decisions remanded upon review by the U.S. Court of Appeals for the Federal Circuit has ranged from 3 percent to 6 percent. The remand rate in FY 2002 was at the upper end of the expected range and reflects normal year-to-year variations.

Both Goal 1.1.3 and Goal 1.1.4 used outcomes of reviews of final Board decisions by the U.S. Court of Appeals for the Federal Circuit to measure the quality of those decisions. Because a single goal is sufficient for that purpose, this goal has been discontinued and Goal 1.1.4 has been retained (and renumbered as Goal 1.1.3) in the agency's Performance Plan for FY 2003-FY 2004.

Performance Goals	Component	Experience
<b>Goal 1.1.4</b> Maintain high percentage of Board decisions unchanged on review by the U.S. Court of Appeals for the Federal Circuit (Court dismisses case or affirms Board decision)  <b>FY 2002 Goal</b> – 93 % or greater <b>FY 2003 Goal</b> – 93 % or greater	Board, ORO/Regional Offices, ALJ, OAC, OGC	<b>FY 1999 Actual</b> – 93 % <b>FY 2000 Actual</b> – 96 % <b>FY 2001 Actual</b> – 96 % <b>FY 2002 Actual</b> – 93 %

#### **FY 2002 Results**

This goal was met. In recent years, the percentage of final Board decisions that remained unchanged (decision affirmed or case dismissed) upon review by the U.S. Court of Appeals for the Federal Circuit has ranged from 93 percent to 96 percent. The rate achieved in FY 2002 was at the lower end of the expected range and reflects normal year-to-year variations. The goal for FY 2003 assumes that results for this indicator of decision quality can be maintained within the expected range.

This goal has been renumbered as Goal 1.1.3 in the agency's Performance Plan for FY 2003-FY 2004.

<b>Objective 2 – Issue timely decisions at both the regional office and Board headquarters levels</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.2.1</b> Maintain average case processing time for initial decisions issued in regional offices  <b>FY 2002 Goal</b> – 100 days or less <b>FY 2003 Goal</b> – 100 days or less	ORO/Regional Offices	<b>FY 1999 Actual</b> – 100 days <b>FY 2000 Actual</b> – 89 days <b>FY 2001 Actual</b> – 92 days <b>FY 2002 Actual</b> – 96 days

#### **FY 2002 Results**

This goal was met. The average case processing time for initial decisions issued in the regional offices has ranged from 89 days to 108 days in recent years. To encourage timely case processing, the Board established the target for this goal in the lower part of that range—100 days or less. The 96-day average case processing time achieved in FY 2002 exceeds that target. The goal for FY 2003 assumes that results for this indicator of case processing timeliness in the Board’s regional and field offices can be maintained at 100 days or less, assuming relative stability in case receipts and regional office staffing.

<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.2.2</b> Maintain/reduce average case processing time for decisions on PFRs issued by the Board  <b>FY 2002 Goal</b> – 195 days or less <b>FY 2003 Goal</b> – 190 days or less	Board, OAC, OGC, OCB	<b>FY 1999 Actual</b> – 222 days <b>FY 2000 Actual</b> – 176 days <b>FY 2001 Actual</b> – 214 days <b>FY 2002 Actual</b> – 205 days

#### **FY 2002 Results**

This goal was met. The average case processing time for decisions on PFRs issued by the Board in FY 2002 was 205 days—within 5 percent of the goal. In accordance with OMB instructions for agency Performance Reports (OMB Circular A-11 (2002), section 231.4(c)), this goal is considered met because the performance goal was set months in advance at an approximate target level, and the deviation from that level is slight. The 205-day average case processing time in FY 2002 falls within the range of recent years—176 days to 222 days—and is an improvement over the average processing time in the previous fiscal year. The target for FY 2003 is maintained at the previously established level of 190 days or less to provide continued encouragement to the Board and the headquarters legal offices to improve case processing timeliness.

Performance Goals	Component	Experience
<b>Goal 1.2.3</b> Reduce average case processing time in the Office of the General Counsel for enforcement cases  <b>FY 2002 Goal</b> – 160 days or less <b>FY 2003 Goal</b> – Not applicable	Board, OGC	<b>FY 1999 Actual</b> – 206 days <b>FY 2000 Actual</b> – 206 days <b>FY 2001 Actual</b> – 224 days <b>FY 2002 Actual</b> – 208 days

### FY 2002 Results

This goal was not met. Although the 208-day average processing time for enforcement cases in OGC in FY 2002 is a significant decrease from the previous fiscal year, it falls short of the target by 30 percent. Nevertheless, the average processing time of 208 days is consistent with the results achieved in both FY 1999 and FY 2000. Enforcement cases frequently take an unusually long time to process because they cannot be closed until an agency has completely complied with a Board order, including payment of back pay and benefits, with interest, and restoration to the appellant's Thrift Savings Plan account. Thus, the Board must rely on an agency to present its evidence of compliance promptly, with a narrative explanation sufficient to explain its calculations to the appellant and the Board. The average processing times in recent years represent a significant achievement by OGC in closing a substantial number of overage enforcement cases. When a large number of overage cases are closed in a given year, the effect is to *raise* the average case processing time for that year.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Enforcement cases at headquarters constitute only a small part of the headquarters caseload—62 cases out of a total of about 1,300 headquarters cases decided in FY 2002. While a few enforcement cases were among the oldest pending cases at headquarters, the Board's efforts in recent years to focus attention on closing overage enforcement cases have been successful. Therefore, performance goals focused solely on enforcement cases are no longer necessary in the Performance Plan.

Performance Goals	Component	Experience
<b>Goal 1.2.4</b> Reduce number of cases pending at headquarters for more than 300 days  <b>FY 2002 Goal</b> – 48 cases or fewer <b>FY 2003 Goal</b> – 46 cases or fewer	Board, OAC, OGC, OCB	<b>FY 1999 Actual</b> – 77 cases (not including 15 enforcement cases) pending more than one year (365 days) at year-end  <b>FY 2000 Actual</b> – 53 cases pending more than 300 days at year-end (target was lowered from 365 days to 300 days midway through FY 2000 and enforcement cases were added)  <b>FY 2001 Actual</b> – 45 cases pending more than 300 days at year-end  <b>FY 2002 Actual</b> – 61 cases pending more than 300 days at year-end

### FY 2002 Results

This goal was not met. Despite the continuing focus of the Board members and the headquarters legal offices on reducing the number of overage cases pending at headquarters, the number pending at year-end was 27 percent above the target. This result reflects the fact that, for the last three-quarters of the fiscal year, the Board had only two members. The Board decides cases by majority vote, and when there are only two members, there is an increased likelihood that some cases will take an unusually long time to close because the two members cannot agree on the disposition. The majority of cases pending for more than 300 days at the end of FY 2002 were cases in which the two Board members could not reach agreement. In the first four months of FY 2003, 12 of those cases have been closed. In an effort to reduce the likelihood of cases becoming overage under similar circumstances in the future, the Board has established a process whereby decision-writing attorneys in OAC engage in earlier consultations with the Board members' staffs to devise dispositions to achieve resolution. Despite the FY 2002 result, the previously established target for FY 2003 is maintained to provide continued encouragement to the Board and the headquarters legal offices to reduce the number of pending overage cases. This goal has been renumbered as Goal 1.2.3 in the agency's Performance Plan for FY 2003-FY 2004.

<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.2.5</b> Reduce number of enforcement cases pending at headquarters for more than 300 days <b>FY 2002 Goal</b> – 4 cases or fewer <b>FY 2003 Goal</b> – Not applicable	Board, OGC, OCB	<b>FY 1999 Actual</b> – Not applicable <b>FY 2000 Actual</b> – Not applicable <b>FY 2001 Actual</b> – Not applicable <b>FY 2002 Actual</b> – 4 cases pending more than 300 days at year-end

#### **FY 2002 Results**

This goal was met. This was a new goal for FY 2002 and was intended to provide further encouragement to improve the processing time for enforcement cases at headquarters.

Like Goal 1.2.3, this goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Enforcement cases at headquarters constitute only a small part of the headquarters caseload. While a few enforcement cases were among the oldest pending cases at headquarters, the Board's efforts in recent years to focus attention on closing overage enforcement cases have been successful. Therefore, performance goals focused solely on enforcement cases are no longer necessary in the Performance Plan.

<b>Objective 3 – Hold increase in overall average case processing costs to no more than the percentage increase in operating costs, adjusted for the change in the number of decisions issued.</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 1.3.1</b> Use video conference hearings and telephone hearings, where appropriate, to reduce case processing costs <b>FY 2002 Goal</b> – Continue to hold video and telephone hearings in appropriate cases <b>FY 2003 Goal</b> – Not applicable	ORO/Regional Offices, ALJ, FAM	<b>FY 1999 Actual</b> – Video and telephone hearings held in appropriate cases <b>FY 2000 Actual</b> – Video and telephone hearings held in appropriate cases <b>FY 2001 Actual</b> – Video and telephone hearings held in appropriate cases <b>FY 2002 Actual</b> – Video and telephone hearings held in appropriate cases

### **FY 2002 Results**

This goal was met. The goal was intended to encourage continued use of the cost-saving video conferencing technology—as well as telephone hearings—while recognizing that their use may not be appropriate in many cases. In the last quarter of FY 2002, the Board—through its decisions—provided greater guidance as to when the use of video hearings is appropriate.

This goal has been discontinued in the agency’s Performance Plan for FY 2003-FY 2004. The Board continues to use video hearings and telephone hearings, where appropriate. Because such use has been incorporated into the Board’s standard adjudicatory procedures, a specific performance goal is no longer necessary.

Performance Goals	Component	Experience
<p><b>Goal 1.3.2</b></p> <p>Hold increase in overall average case processing costs to no more than the percentage increase in operating costs, adjusted for the changes in the number of decisions issued</p> <p><b>FY 2002 Goal</b> – \$2,820 plus percentage increase in operating costs, adjusted for the changes in the number of decisions issued.</p> <p><b>FY 2003 Goal</b> – \$2,821 plus percentage increase in operating costs, adjusted for the changes in the number of decisions issued.</p>	Board, All Legal Offices	<p><b>FY 1999 Actual</b> – \$2,775</p> <p><b>FY 2000 Actual</b> – \$2,876 (adjusted)</p> <p><b>FY 2001 Actual</b> – \$2,820 (adjusted)</p> <p><b>FY 2002 Actual</b> – \$2,821 (adjusted)</p>

### FY 2002 Results

This goal was met. The average case processing cost in FY 2002—adjusted for year-to-year variations in the number of cases processed and to amortize the cost of the electronic case processing system—was \$2,821. This number is virtually identical to the adjusted average case processing cost in FY 2001. As in past years, the success of the Board’s settlement programs is a significant factor in containing case processing costs (see Goal 2.1.3). The goal established for FY 2003 calls for continuing to hold the increase in the average case processing cost to no more than the percentage increase in the operating costs that most affect case processing—salaries and benefits, travel expenses, and the cost of court reporting services—adjusted for year-to-year variations in the number of cases processed and to amortize the cost of the electronic case processing system.

This goal has been renumbered Goal 1.3.1 in the agency’s Performance Plan for FY 2003-FY 2004.

<b>Objective 4 – Obtain customer input regarding the adjudicatory process</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<p><b>Goal 1.4.1</b></p> <p>Continue to evaluate and implement, as appropriate, suggestions received from customer surveys regarding the adjudicatory process</p> <p><b>FY 2002 Goal</b> – Continue to conduct customer surveys and implement suggestions as appropriate</p> <p><b>FY 2003 Goal</b> – Seek feedback from persons appearing before the Board and provide that feedback to ORO for use in improving adjudicatory processes and developing best practices (Regional and Field Office staff)</p>	Board, All Legal Offices, OPE	<p><b>FY 1999 Actual</b> – Revised PFR Form in response to suggestions from customer survey</p> <p><b>FY 2000 Actual</b> – Conducted survey on experience of parties and MSPB judges with bench decisions and video hearings</p> <p><b>FY 2001 Actual</b> – Evaluated and published results of survey on experience of parties and MSPB judges with bench decisions and video hearings; bench decisions and video hearings are now incorporated into MSPB adjudicatory procedures</p> <p><b>FY 2002 Actual</b> – Conducted survey of customers of new video explaining MSPB appeals process; report on findings prepared by OPE and reviewed by ORO</p>

### **FY 2002 Results**

This goal was met. Early in FY 2002, the Board released a new video, “Introduction to Federal Employee Appeals with the Merit Systems Protection Board,” that provides parties to MSPB appeals with a guide to the Board’s procedures for hearing and deciding appeals. Customers who requested the video were surveyed to determine whether they found the video useful. A report on the survey results was prepared by OPE and reviewed by ORO. Appropriate suggestions will be implemented should this video be revised or another video produced. In the agency’s Performance Plan for FY 2003-FY 2004, the goal for FY 2003 has been revised to reflect specific plans for seeking customer feedback in that year.

Performance Goals	Component	Experience
<p><b>Goal 1.4.2</b></p> <p>Evaluate suspended case pilot program to determine impact of allowing additional time for discovery and settlement efforts</p> <p><b>FY 2002 Goal</b> – Based on evaluation of pilot program and recommendations submitted to the Chairman in FY 2001, decide whether to make program permanent or discontinue it</p> <p><b>FY 2003 Goal</b> – Not applicable</p>	OPE, ORO/Regional Offices	<p><b>FY 1999 Actual</b> – Not applicable</p> <p><b>FY 2000 Actual</b> – Suspended case pilot program implemented</p> <p><b>FY 2001 Actual</b> – Suspended case pilot program evaluated and recommendations submitted to the Chairman—recommended making program permanent and soliciting customer comment when regulations are published</p> <p><b>FY 2002 Actual</b> – The Board approved making the suspended case program permanent; interim regulations, with request for comments, were published in JAN 2002; final regulations were published in SEP 2002</p>

### FY 2002 Results

This goal was met. The suspended case pilot program, launched early in FY 2000, was intended to test whether allowing extended time for the parties to engage in discovery and settlement efforts could improve the Board's case processing. The evaluation conducted in FY 2001 suggested that the program facilitates due process while maintaining controls to ensure timely processing of appeals, and the report submitted to the Chairman recommended making the program permanent. The Board approved this recommendation early in FY 2002. Interim regulations were published January 28, 2002, and following review of public comments, final regulations were published on September 19, 2002.

Because this goal has been accomplished, it has been discontinued in the agency's Performance Plan for FY 2003-FY 2004.

<b>Strategic Plan Goal 2</b> <b>To make effective use of alternative methods of dispute resolution in Board proceedings and to promote through education, outreach, and other appropriate means the use of alternative methods of dispute resolution and avoidance in the early stages of a dispute</b>		
<b>Objective 1 – Continue the successful use of alternative dispute resolution (ADR) procedures in MSPB proceedings at both the regional office and Board headquarters levels</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<b>Goal 2.1.1</b> Maintain rate of settlement of initial appeals that are not dismissed at 50 % or higher <b>FY 2002 Goal – 50 % or higher</b> <b>FY 2003 Goal – 50 % or higher</b>	ORO/Regional Offices	<b>FY 1999 Actual – 53 %</b> <b>FY 2000 Actual – 55 %</b> <b>FY 2001 Actual – 57 %</b> <b>FY 2002 Actual – 54 %</b>

### FY 2002 Results

This goal was met. The settlement rate for initial appeals that are not dismissed has ranged from 50 percent to 57 percent in recent years. Although the settlement rate in FY 2002 decreased slightly from the previous fiscal year, it remains within the expected range. The goal for FY 2003 is maintained at 50 percent or higher.

#### **FY 2002 Results**

This goal was met. The settlement rate for petitions for review (PFRs) selected for the PFR Settlement Program at headquarters has ranged from 21 percent to 29 percent since its inception in FY 1994. The rate of 26 percent achieved in FY 2002 falls within the expected range. The goal for FY 2003 is maintained at 25 percent or higher and is intended to encourage OAC to work for results at the higher end of the expected range.

### FY 2002 Results

This goal was met. The methodology developed by FAM reflects the fact that cost savings are achieved by MSPB settlement programs because fewer hearings are held, the total case processing time is shorter, and fewer initial appeals are brought to the Board on petition for review (PFR). The calculation made by FAM for FY 2002 produced an estimated annual cost savings of \$4.3 million.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Experience with the goal over the past two years has demonstrated that it does not produce particularly useful performance information. Current MSPB settlement programs have been in effect for many years, and cost savings from those programs are reflected in appropriations requests that are significantly lower than they would have been had such programs not been in effect.

#### **FY 2002 Results**

This goal was met. This was a new goal for FY 2002 and was intended to ensure that OAC would respond promptly to customer inquiries regarding the PFR Settlement Program. Although there had been only an occasional problem with response time previously, OAC established a standard of responding to inquiries within 48 hours, and that standard has been met on a regular basis.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Because OAC regularly responds to inquiries regarding the PFR Settlement Program within 48 hours, the goal is no longer necessary.

Because legislation authorizing the MSPB to conduct a voluntary early intervention ADR pilot program was not enacted in FY 2002, this goal is *not applicable* to the year covered by this report. In addition, no specific goal for FY 2002 was established in the agency's Performance Plan because it was anticipated that work on this goal could not begin until the year after the year in which the voluntary early intervention ADR pilot program was implemented (Goal 2.2.1).

### **FY 2002 Results**

This goal was met. The work of the ADR Working Group in the previous fiscal year concluded with the selection of a contractor to develop a pilot mediation program to test the use of mediation in the Board's appellate proceedings. In FY 2002, the Mediation Appeals Project (MAP) was developed and launched. Under the MAP, the parties to an appeal filed with a MSPB regional or field office are offered the opportunity to submit their dispute to a trained mediator. If the dispute cannot be resolved through that mediation, the appeal is returned to the regular adjudication process. The MAP is a supplement to, not a replacement for, the Board's existing settlement programs.

During FY 2002, the Board announced MAP to all MSPB employees and solicited applications to be a mediator, selected mediators and conducted training, promoted MAP through outreach activities, and established a MAP marketing program. In addition, MAP-trained mediators working with the contractor completed the first two co-mediations. The MAP pilot period continues into FY 2003. During that year, the Board will conduct training for MSPB staff in the regional offices that will serve as pilot sites, conduct outreach to potential participants in the mediation process, and conduct additional mediations. At the end of the pilot period, the results achieved by the pilot program will be evaluated.

In addition to outreach on MAP, Board employees conducted outreach on the longstanding settlement program at the regional level and the PFR Settlement Program at headquarters. Representatives of the PFR Settlement Program also met with representatives of the EEOC and the Office of Special Counsel to discuss the operation of each agency's settlement programs.

In the agency's Performance Plan for FY 2003-FY 2004, the portion of this goal dealing with the incorporation of additional ADR techniques into MSPB settlement programs has been retained as new Goal 2.1.3. The remainder of this goal was based on the expectation that legislation authorizing the MSPB to conduct a voluntary early intervention ADR pilot program would be enacted. Because such legislation was not enacted, that portion of the goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004.

### **FY 2002 Results**

This goal was met. The ongoing program of merit systems studies continued to be conducted, and 4 major study reports were released in FY 2002. These reports included a 20-year retrospective on the achievements and challenges of the Office of Personnel Management, an examination of the Federal merit promotion process, and a study of how Federal job seekers are assessed in a delegated examining environment. The Board also compiled recommendations from a number of earlier reports into a special report for the Volcker Commission. In addition to the major study reports, 4 editions of the *Issues of Merit* newsletter were published.

In the agency's Performance Plan for FY 2003-FY 2004, minor changes in wording have been made to clarify this goal. In addition, the goal for FY 2003 has been expanded to include several new components. The MSPB intends to develop a long-term research agenda that focuses on broad HRM issues, such as pay/compensation, labor relations, employee and organizational performance, and agency workforce planning/restructuring. The number of in-depth reports to be issued during FY 2003 has been increased from 4 to 6. The MSPB also plans to conduct less intensive studies on current topics of particular interest to the President and Congress. The MSPB plans to explore ways to improve the conduct of its studies, including gaining improved access to the Central Personnel Data File (CPDF) maintained by OPM and testing the use of electronic surveys. In addition, the MSPB will seek to formalize its collaborative relationships with other research organizations.

### **FY 2002 Results**

This goal was met. The goal for distribution of studies-related products in FY 2002 was exceeded, with a combined total of more than 100,000 reports and newsletters distributed to individuals and organizations in printed form or downloaded from the MSPB website and other websites. Early in FY 2002, the MSPB implemented a Studies listserv on its website, which now has more than 500 subscribers. Members of the OPE staff made 23 formal presentations to a variety of audiences interested in Federal public administration issues and held meetings with the Federal Executive Boards in Chicago, Denver, and San Antonio. OPE staff members also engaged in approximately 350 discussions with individuals working in the area of public administration to provide either the results of OPE research efforts or to share OPE perspectives on issues related to Federal human resources management.

In the agency's Performance Plan for FY 2003-FY 2004, this goal has been revised to change the focus from number of reports distributed, number of reports downloaded from the website, and number of outreach presentations. Instead, the revised goal focuses on specific efforts to target outreach activities on studies to key audiences, such as the Senior Executives Association, the Federal Managers Association, Federal Executive Boards, and others. The revised goal also supports expanded efforts to use the MSPB website to increase the exposure of the Board's studies, as well as to make other website enhancements such as expanded links to research partners and self-service updates to the studies mailing list.

<p><b>Goal 3.1.3</b></p> <p>Evaluate impact of studies through feedback from customer surveys, including formal surveys every 2 to 3 years, informal surveys (e.g., focus groups), and volunteered feedback (e.g., letters and e-mailed comments)</p> <p><b>FY 2002 Goal</b> – Conduct formal survey that repeats key questions of earlier customer surveys</p> <p><b>FY 2003 Goal</b> – See Goal 3.1.4</p>	OPE	<p><b>FY 1999 Actual</b> – Results of formal customer survey published; results showed 85 % or better agreement on key questions of relevance, usefulness, and practicality of findings and recommendations in studies</p> <p><b>FY 2000 Actual</b> – Informal survey results and volunteered feedback remained positive</p> <p><b>FY 2001 Actual</b> – Submitted request for blanket authority to conduct customer surveys to OMB and received approval; submitted survey instrument to OMB for review</p> <p><b>FY 2002 Actual</b> – Conducted customer survey, compiled returns, and completed report; customer satisfaction survey results indicate substantial positive impact</p>

### FY 2002 Results

This goal was met. A survey of customers of the Board's studies was conducted early in FY 2002. Evaluation of the survey results was originally the goal for FY 2003. However, the results were evaluated, and a report was completed before the end of the fiscal year. Therefore, there is no longer a FY 2003 goal with respect to the customer survey. Goal 3.1.3 has been combined with Goal 3.1.4 in the agency's Performance Plan for FY 2003-FY 2004.

Performance Goals	Component	Experience
<p><b>Goal 3.1.4</b></p> <p>Evaluate impact of studies through other appropriate means, such as tracking use of recommendations and tracking references to studies in policy papers, professional literature, and the media</p> <p><b>FY 2002 Goal</b> – Recommendations in studies are used and opinion makers cite them in policy papers, professional literature, and the media</p> <p><b>FY 2003 Goal</b> – Recommendations in studies are used and opinion makers cite them in studies, policy papers, professional literature, and the media</p>	OPE	<p><b>FY 1999 Actual</b> – MSPB studies continued to have large and positive impact, as measured by references in professional literature, media, and respected research organizations</p> <p><b>FY 2000 Actual</b> – Same as in FY 1999</p> <p><b>FY 2001 Actual</b> – List of citations and references to MSPB studies and recommendations by Congress, GAO, NAPA, the professional literature, the media, and other credible sources was developed, indicating that MSPB studies continued to have large and positive impact</p> <p><b>FY 2002 Actual</b> – Collection of citations indicate substantial positive impact; sent selected recommendations from earlier studies to Volcker Commission on civil service reform</p>

### FY 2002 Results

This goal was met. The OPE staff tracks citations and references to MSPB studies and recommendations by Congress, GAO, NAPA, the professional literature, the media, and other credible sources. The results confirm that MSPB studies continue to have a large and positive impact in the Federal human resources management arena. In the agency's Performance Plan for FY 2003-FY 2004, this goal has been combined with Goal 3.1.3 so that there is a single goal for evaluating the impact of the Board's studies through both formal and informal means.

### **FY 2002 Results**

This goal was not met. The Board released results from its 2000 Merit Principles Survey primarily through several editions of its newsletter, *Issues of Merit*, during FY 2001. In FY 2002, the OPE staff prepared a report on the survey results for approval by the Board, but a decision was made to defer release of the report until Spring 2003. The Board's next triennial Merit Principles Survey will be conducted during FY 2003, and a report on the survey is scheduled for issuance in FY 2004.

This goal was met. The agency's Performance Plan for FY 2002-FY 2003 was submitted to OMB and Congress when the President's FY 2003 budget was transmitted to Congress. The FY 2001 Performance Report was submitted on schedule in March 2002. No concerns were raised by either OMB or Congress.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Complying with GPRA is now an established part of normal agency operations, and a specific performance goal is no longer necessary.

This goal was met. During FY 2002, funds were carefully allocated to provide for the continued efficient performance of the Board's statutory missions.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Allocating resources effectively is incorporated into normal agency operations. Experience with this goal in the past two years has shown that it does not develop particularly useful performance information.

<b>Objective 3 – Develop and implement an integrated and updated automated agency-wide case management system to assist in effective case processing, management, and program evaluation</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<p><b>Goal 4.3.1</b> Implement new case management system (Law Manager) as part of information technology initiative</p> <p><b>FY 2002 Goal</b> – Implement Law Manager; make adjustments as necessary, based on user experiences</p> <p><b>FY 2003 Goal</b> – See Goal 4.4.1</p>	Chairman, Chief of Staff, OCB, IRM, FAM	<p><b>FY 1999 Actual</b> – General requirements for new case management system developed; vendors evaluated and Law Manager selected as new case management system</p> <p><b>FY 2000 Actual</b> – Detailed requirements finalized and work with vendor begun; first prototype delivered</p> <p><b>FY 2001 Actual</b> – Prototype tested and adjusted</p> <p><b>FY 2002 Actual</b> – Continued work with contractor on development of case management system, including testing of partial implementations and data conversions</p>

### FY 2002 Results

This goal was not met. The Law Manager contractor continued to deliver partial implementations and database conversions during FY 2002, and IRM continued to test these deliverables as received. However, the contractor did not complete all necessary work by the end of the fiscal year. Because this contract was awarded through FEDSIM, both IRM and FEDSIM staff met with the contractor to establish a firm timetable for the contractor to complete the project. The remaining work is to be performed under a new firm fixed-price contract. After delivery of the complete system, extensive testing by IRM will be required. Implementation is now to take place in FY 2003. In the agency's Performance Plan for FY 2003-FY 2004, Goal 4.3.1 has been combined with Goal 4.4.1 (and renumbered as Goal 4.1.1). Combining these goals results in a single goal covering all components of the agency's planned electronic case processing system.

<b>Objective 4 – Develop and implement electronic case filing to allow appellants and agencies to file and receive documents electronically</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<p><b>Goal 4.4.1</b></p> <p>Continue implementation of electronic case filing, as part of information technology initiative, so that parties will be able to file and receive case documents electronically by October 2003, as required by the Government Paperwork Elimination Act (GPEA)</p> <p><b>FY 2002 Goal</b> – Make adjustments in document management system as necessary, based on user experiences; implement pilot electronic filing system</p> <p><b>FY 2003 Goal</b> – Implement the following components of the electronic case processing system: (1) Law Manager - new case management system that integrates case tracking with document management, document assembly, and electronic calendar; and (2) e-Appeal – web-based application that appellants may use to file an appeal</p>	<p>Chairman, Chief of Staff, OCB, IRM, FAM</p>	<p><b>FY 1999 Actual</b> – Detailed requirements developed; vendors evaluated and DocsOpen selected as document management system</p> <p><b>FY 2000 Actual</b> – Document management and document assembly systems implemented</p> <p><b>FY 2001 Actual</b> – Adjustments made in document management and document assembly systems to provide interface with Law Manager and Lotus Notes; fill-in versions of Appeal Form and PFR Form developed and placed on website; work on revising Appeal Form to provide basis for on-line electronic appeals process begun; Action Plan for implementation of on-line electronic appeals process developed and distributed internally; meeting with potential contractors to develop on-line electronic appeals process begun</p> <p><b>FY 2002 Actual</b> – See next page</p>

<p><b>Goal 4.4.1 (continued)</b></p> <p>Continue implementation of electronic case filing, as part of information technology initiative, so that parties will be able to file and receive case documents electronically by October 2003, as required by the Government Paperwork Elimination Act (GPEA)</p> <p><b>FY 2002 Goal</b> – Make adjustments in document management system as necessary, based on user experiences; implement pilot electronic filing system</p> <p><b>FY 2003 Goal</b> – Implement the following components of the electronic case processing system: (1) Law Manager - new case management system that integrates case tracking with document management, document assembly, and electronic calendar; and (2) e-Appeal – web-based application that appellants may use to file an appeal</p>	<p>Chairman, Chief of Staff, OCB, IRM, FAM</p>	<p><b>FY 2002 Actual</b> – Completed revisions to Appeal Form, distributed internally for comment, evaluated comments, revised form to create Appeal Forms Package that will serve as basis for electronic filing application, and published for public comments in accordance with the PRA; wrote Statement of Work (SOW) and Functional Requirements Document (FRD) for development of electronic filing application</p>

### FY 2002 Results

This goal was not met. Nevertheless, substantial work in preparation for implementation of an electronic filing system was completed during FY 2002. The necessary revisions to the MSPB Appeal Form, which will serve as the basis for the electronic filing application, were made. In addition, the Functional Requirements Document for the application and the Statement of Work to solicit bids for the contract were completed. Since the end of FY 2002, contractor bids have been received and evaluated, and the contract has been awarded. The MSPB remains on track to make electronic filing available to the Board's customers by the October 2003 deadline established by GPEA.

In the agency's Performance Plan for FY 2003-FY 2004, Goal 4.4.1 has been combined with Goal 4.3.1 (and renumbered as Goal 4.1.1). Combining these goals results in a single goal covering all components of the agency's planned electronic case processing system.

<b>Objective 5 – Improve electronic access via the Internet and other available resources to MSPB case-related decisions, procedures and guidance</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<p><b>Goal 4.5.1</b></p> <p>Make final Board decisions, reports and other publications, the MSPB Appeal Form and other forms, Board regulations, the OPE newsletter, and other information available on the MSPB website; provide information to customers in electronic form when requested</p> <p><b>FY 2002 Goal</b> – Continue to provide all information as before on the MSPB website and add new information in response to customer needs; continue to provide information to customers in electronic form when requested</p> <p><b>FY 2003 Goal</b> – Complete adding <i>all</i> pre-1994 Board decisions to decisions database on website; redesign website to improve access to information; continue to provide information to customers in electronic form when requested</p>	<p>Chairman, Chief of Staff, OCB, IRM</p>	<p><b>FY 1999 Actual</b> – The MSPB website (launched in 1994) continued to provide access to final Board decisions, reports and other publications, the MSPB Appeal Form and other forms, Board regulations, the OPE newsletter, and other information; information provided to customers in electronic form when requested</p> <p><b>FY 2000 Actual</b> – Redesigned MSPB website launched; continued to provide all information as before, but new search tool for Board decisions included, and link to GPO Access files of Board regulations replaced by MSPB files that are continuously updated as regulations are revised; information provided to customers in electronic form when requested</p> <p><b>FY 2001 Actual</b> – See next page</p> <p><b>FY 2002 Actual</b> – See next page</p>

### **FY 2002 Results**

This goal was met. During FY 2002, the MSPB implemented two listservs on its website, one for Board decisions and one for merit systems studies. The MSPB also completed adding key precedential Board decisions issued from the inception of the Board in 1979 to 1994 (when the website was launched) to the decisions database on the MSPB website, and began adding *all* pre-1994 decisions to the database. By the end of FY 2002, all publishers of Board decisions were receiving the decisions in electronic form, and distribution of paper copies to them had been discontinued. The MSPB continued to provide information to customers in electronic form when requested.

In the agency's Performance Plan for FY 2003-FY 2004, the goal for FY 2003 has been revised (and renumbered as Goal 4.2.1) to include specific projects related to the MSPB website that are scheduled for completion in that year.

<b>Objective 6 – Identify, test, and implement, as appropriate, new technologies that will increase efficiency, reduce costs, and improve customer service</b>		
<b>Performance Goals</b>	<b>Component</b>	<b>Experience</b>
<p><b>Goal 4.6.1</b></p> <p>Stay abreast of changes in technology and continue to assess all agency operations to determine where new or improved technologies have the potential to increase efficiency, reduce costs, and improve customer service; analyze costs and benefits; implement where practicable</p> <p><b>FY 2002 Goal</b> – Convert Oracle databases and Lotus Notes to UNIX servers from Windows NT; provide additional capabilities to end-users through release 5 of Lotus Notes; continue to evaluate network performance and make recommendations for improvements as needed</p> <p><b>FY 2003</b> – Not applicable</p>	<p>Chairman, Chief of Staff (CIO), IRM, FAM</p>	<p><b>FY 1999 Actual</b> – Provided scanners to all MSPB locations; began evaluation of laptop/docking station technology</p> <p><b>FY 2000 Actual</b> – Provided new PCs to all employees, including laptop/docking station PCs to flexiplace employees; implemented new versions of Netware, MS Windows, MS Word (WORD '97), and Zen Works (remote software distribution)</p> <p><b>FY 2001 Actual</b> – Lotus Notes 5 evaluated and implementation approved—implementation scheduled for Spring 2002; network study completed and enhancements begun—headquarters upgrades completed</p> <p><b>FY 2002 Actual</b> – New Law Manager case management system, under development, made operational on UNIX server; all but one office upgraded to Lotus Notes 5; network improvements made</p>

### **FY 2002 Results**

This goal was met. The new Law Manager case management system, which is still under development, is operational on a UNIX server. During the fiscal year, all MSPB offices were upgraded to Lotus Notes 5, except the New York Field Office (NYFO). The upgrade at NYFO was postponed because of renovations to the office. Network improvements made during FY 2002 included: (1) implementation of a Virtual Private Network to access the National Finance Center; (2) an increase in Internet connection speed; and (3) server upgrades for both Lotus Notes and the Document Management System.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004. Keeping abreast of improvements in information technology, evaluating them for application to MSPB operations, and implementation as needed are part of the continuing responsibilities of IRM and need not be included as a Performance Plan goal.

<p><b>Goal 4.6.2</b> Continue to make improvements in information technology security program</p> <p><b>FY 2002 Goal</b> – Develop security plan for major systems; update risk analysis and develop service continuity plan for major systems; provide security awareness training to all employees; provide additional computer security training to 2 IRM employees</p> <p><b>FY 2003 Goal</b> – Provide security awareness training to all staff; revise security plans for implementation of new case management system and electronic filing application; continue to enhance security and contingency planning</p>	Chairman, Chief of Staff (CIO), IRM	<p><b>FY 1999 Actual</b> – Not applicable  <b>FY 2000 Actual</b> – Not applicable  <b>FY 2001 Actual</b> – Not applicable  <b>FY 2002 Actual</b> – Conducted security awareness training for all employees; sent one IRM employee to security training; completed Security Plan; updated Risk Analysis; completed Contingency Plan for major systems</p>

### FY 2002 Results

This goal was met. This was a new goal for FY 2002 and was incorporated into the Performance Plan in accordance with OMB instructions implementing the Government Information Security Reform Act (GISRA). IRM completed all scheduled tasks, including developing a Security Plan, updating the Risk Analysis for all major systems, and developing a Contingency Plan. Security awareness training was provided to all employees. Additional computer security training was provided to one IRM employee during the fiscal year, and a second IRM employee received such training in October 2002.

In the agency's Performance Plan for FY 2003-FY 2004, this goal has been revised (and renumbered as Goal 4.3.1). The revision reflects current agency initiatives to enhance computer security in compliance with the Federal Information Security Management Act of 2002, which replaced GISRA in December 2002.

**Strategic Plan Goal 5**

**To develop the MSPB's human resources to ensure a continually improving, highly effective and efficient organization with the flexibility to meet program needs**

**Objective 1 – Recruit, train, and retain skilled, highly motivated employees to effectively and efficiently accomplish the MSPB mission**

**Objective 2 – Ensure that all employees and components of the MSPB work well together and integrate their efforts to accomplish the MSPB mission**

**Objective 3 – Promote efficient and effective accomplishment of the MSPB mission by providing a work environment with workplace policies and programs that enable MSPB employees to excel**

### **FY 2002 Results**

This goal was met. To continue and expand development opportunities for its staff, the MSPB sent 5 employees to OPM's Management Development Centers and 2 employees to the Federal Executive Institute (FEI) in FY 2002. A sixth employee who had been scheduled to go to MDC in September 2002 went in October instead. Details to the offices of the Board members continued, as did the detail of an OAC attorney to ORO. OAC attorneys continued to be detailed on a rotating basis to OCB for the Expedited PFR Pilot Program until March 1, 2002, when responsibility for the program was transferred to OAC. In addition, two employees were detailed to serve as Acting Director of the Western Regional Office during the Director's military leave.

In the agency's Performance Plan for FY 2003-FY 2004, this goal has been revised and combined with Goal 5.2 (and renumbered as Goal 5.1.1) to create a single goal for the agency's training, employee development, and management development programs. The revised goal focuses on the agency's current plans for training and development programs rather than on numbers of employees sent to various training programs and detailed to other offices.

Performance Goals	Component	Experience
<p><b>Goal 5.2</b> Allocate sufficient resources to employee training so that all employees can receive the training identified in their Individual Development Plans (IDPs)</p> <p><b>FY 2002 Goal</b> – Allocate \$ 270,000 for training in accordance with IDPs and ensure that training funds are used effectively; establish Training Committee</p> <p><b>FY 2003 Goal</b> – See Goal 5.1</p>	Chief of Staff, All Offices	<p><b>FY 1999 Actual</b> – \$ 166,000 spent on training</p> <p><b>FY 2000 Actual</b> – \$ 178,500 spent on training</p> <p><b>FY 2001 Actual</b> - \$ 345,000 spent on training (excluding the \$130,000 spent on legal conference); IDPs developed for all employees and training in accordance with IDPs begun</p> <p><b>FY 2002 Actual</b> - \$ 315,000 spent on training; Employee and Management Development Committee established in lieu of Training Committee</p>

### FY 2002 Results

This goal was met. During FY 2002, the MSPB spent approximately \$315,000 on employee training, which exceeded the goal for the year. Rather than establish a Training Committee, the Board established a new committee with a broader mandate, the Employee and Management Development Committee.

In the agency's Performance Plan for FY 2003-FY 2004, this goal has been combined with Goal 5.1 (and renumbered as Goal 5.1.1) to create a single goal for the agency's training, employee development, and management development programs. The revised goal focuses on the agency's current plans for training and development programs rather than on dollars spent on training.

### FY 2000 Results

This goal was met. Planning for the 2003 MSPB Legal Conference began in June 2002, with selection of a site as the first order of business. Since the end of FY 2002, a site has been selected, an Agenda Committee has been formed, and work on development of the agenda and invitations to guest speakers is proceeding. The conference, which will be attended by attorneys, senior managers, paralegals, and auxiliary staff from the Board's headquarters and regional and field offices, is scheduled for May 2003.

In the agency's Performance Plan for FY 2003-FY 2004, this goal has been renumbered as Goal 5.1.3.

### FY 2002 Results

This goal was met. During FY 2002, the MSPB maintained opportunities for its employees to work alternative work schedules and participate in the agency's flexiplace program. This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004 because experience has shown that it does not develop particularly useful performance information.

### FY 2002 Results

This goal was met. Like many Federal agencies, the MSPB expects to lose many of its senior managers and other employees during the next 5 years. Therefore, the agency began a program of succession planning in FY 2001, and all managers have addressed the issue of succession planning in their annual business plans.

This goal has been discontinued in the agency's Performance Plan for FY 2003-FY 2004 because succession planning is now incorporated in the revised (and renumbered) Goal 5.1.1.
